# Hello

MY NAME IS

Danylo

This is my resume, and I hope that I did not just try for nothing, and that this approach to a resume will impress you.

WHY IS IT MADE IN THE FORM OF A PRESENTATION?

It's easy! You just need to think about what is the role of a resume? To present myself, which is what the presentation will help me do!)

P.S. I hope you understand why this is so)

Danylo Hordiienko
FullStack developer

BEFORE MOVING ON, I WOULD LIKE TO CLARIFY ONE MORE IMPORTANT POINT

I am only 18!

And I am diligent, hardworking, skillful, resourceful and very motivated to work at my age. So when you think that I'm too young or I won't be able to handle your tasks, then you should read my post on Linkedin about it, because I'm sure I will bring you more value and money than someone who is 40, because I'm faster and cooler!

EXPIRIENCE

Or how I have developed along my career path over the past 5 years

Ponaroshku.ua

January 2020 - September 2020

01 Trainee Full-Stack

My first client for whom I built a crm system that helped them control products, categories, and orders. I also developed a lightweight business card website for their store.

Tech Stack: NodeJs(Express + PostgreSql), JavaScript, Html, Css, Scss.

ActiveDocks

September 2020 - May 2023

02 Front-End Developer ⇒ Full-Stack Developer

My personal startup project, which was a copy of the well-known Diia and developed and grew with me. I learned a lot with it and developed my personal technology stack. Initially, I had this Tech Stack: ReactJs, JavaScript, Scss, and a telegram bot that acted as a communication with the user to change data and other things. Later, I changed the stack, completely rewriting this project from 0 to a working version. And now the project stack looks like this:

FE: JavaScript, NextJs, ReactJs, Scss, TailwindCss.
BE: TypeScript, NestJs, NodeJs + Prisma + MongoDb + PostgreSql.

However, things often happen that you don't expect, so we had to temporarily close the project, although it is fully functional.

The Kiosko
May 2022 - May 2023

03 Front-End & Mobile Developer

Made a front part for software in a coworking center, a mobile application for internal work of services and employees, as well as websites for users to work with data.

Main Stack: VueJs, ReactJs, NextJs, Ts/Js, React-Native.
Tech Stach: ViteJs, Docker, NodeJs, Twig, Php and other...

Ponaroshku.ua v2
May 2023 - Present

04 Full-Stack & Mobile Developer

I went back to freelancing, and my first client needed a full-fledged online store website and a new crm system with more functionality and admin panel capabilities and everything else. So I created a full-fledged website for them, and now in my free time I am developing a crm system and in the future there will be a full-fledged launch of this big project developed only by me.

Tech Stack: TypeScript, NestJs(NodeJs + Prisma + MongoDb), NextJs(ReactJs for admin panel, Scss, TailwindCss), Redux, RtkQuery, Framer-motion and other...

UA StartUp
January 2023 - February 2023

05 **Front-end Developer**

Signed NDA 🤷, so I can't say anything more than tech stack and that it was a delivery project 🤫.

Teck Stack: Styled-Components, ReactJS, Js, Docker.

Freelance
October 2021 - May 2022
May 2023 - Present

06 **Full-Stack Developer**

First part: Simple Freelance work at UpWork. At last Year: Development of turnkey websites for customers and development of in-house projects.

Teck Stack: NextJs + Redux + RTK Query, NestJs + Prisma + PostgreSql & MongoDb, TypeScript, ReactJs + ViteJs, TailwindCss.

other INFORMATION

that you will need about me

- I'm experienced with SCRUM, KISS, YAGNI and DRY methodology.
- Eager in learning new things and develop modern applications.
- Team player.
- Self-managed, responsible and friendly.

my EDUCATION

It's just a basic education, from which I actually got almost nothing, because since I was 15, I've been used to learning on my own, which is why I study every day and don't stop learning, and with every new problem I face, I become better, more resilient and gain many skills that will be useful to me in the future.

2011 - 2022
Secondary education

untill 2017 Lyceum #25, Zhytomyr
after Zhytomyr City Lyceum No. 1

2022 - 2026
Bachelor of Software Development

Zhytomyr State Technological University, Zhytomy

my
HOBBIES

Actually, I like to do a lot of things in my free time, because I don't like to lie in bed very much, although I do have those days, which is why I have a variety of hobbies ranging from games to outdoor meditation, so I'll give you just a couple of examples, and if you're interested, I'm ready to tell you more!

Board Games

Meditation

Dance

Music(piano and singing)

IF YOU'VE READ THIS FAR, I THANK YOU VERY MUCH, AND I HOPE I'VE BEEN ABLE TO TELL YOU WHY ME

Have a great rest of the day and good luck!

If you have any other questions or suggestions, please contact me via the links on my portfolio website or by opportunities on the right.
